BIENNIAL REPORT
OF THE
AUDITOR OF PUBLIC ACCOUNTS
OF THE

AUDITOR'S OFFICE, ILLINOIS,
SPRINGFIELD, *December, 1, 1862.*

To the General Assembly of the State of Illinois:

I have the honor to submit herewith the following report:

1. A statement of receipts and expenditures, showing the amount of revenue received, applicable to the payment of the ordinary and contingent expenses of the State government, and the amount disbursed.
2. A general statement of warrants drawn on the treasury, for all purposes.
3. A detailed statement of warrants drawn on the treasury, and to what account and appropriation charged.
4. A statement of warrants drawn by order of the Governor, and charged to the contingent fund.
5. A statement of the amount of warrants outstanding, unredeemed December 1, 1862.
6. A statement of the redemption money received from minor heirs, and due the owners of tax deeds.
7. A statement of the condition of the school, college, and seminary funds.
8. A statement of State indebtedness, purchased by the Governor, with the surplus proceeds of the two mill tax.
9. A statement of State indebtedness purchased by the Governor, with the Central railroad fund.

10. A statement of State bonds redeemed under the Governor's proclamation of January 10th, 1860, and paid for with the surplus proceeds of the two mill tax.
11. A statement of State bonds redeemed under the Governor's proclamation of January 10th, 1860, and paid for with the Central railroad fund.
12. A statement of bonds paid in full from the proceeds of the two mill tax, January 1, 1861.
- 13 and 14. Tabular statements of real and personal property, assessed and taxed for the years 1860 and 1861.
- 15 and 16. Statements of the taxes charged in the several counties, amount collected, etc., for the years 1860 and 1861.
- 17 and 18. Statements of the school tax fund for the years 1860 and 1861.
19. A statement of the dividends of the school tax and interest funds for the years 1860 and 1861.
20. A statement of the accounts of the State Treasurer with the several State funds.
- 21 to 26, inclusive—the several statements and tables exhibiting the condition and affairs of the banks of the State, organized under the provisions of the general banking law.

The business transacted in this office, during the period embraced in this report, has been of unusual amount and importance. In addition to the usual transactions of this department, the important duty of winding up a large number of the banks of the State, together with the payment of the large amount of claims accruing against the State for war purposes, has greatly increased the business and labor of the office.

The laws passed at the called session of the twenty-second General Assembly, in April and May, 1861, provided for the creation of a war fund, and the appointment of Commissioners to audit accounts and claims against the same; and required the Auditor to issue warrants on the Treasurer for the payment of such claims and accounts as might be allowed by said Commissioners and approved by the Governor. The business of this office, arising from this class of accounts, has been very large, and, in some respects, perplexing. The number of warrants issued against the war fund has been more than double those issued for all other purposes, in the same time; and there is yet a considerable number of accounts allowed and approved, for payment of which application has not been made. There is, also, a class of accounts remaining unpaid, for which the issue of warrants is refused—not because of any doubt on my part as to their merits, but because of the provision contained in section 5 of the act creating the war fund, etc., which requires, that “all claims and accounts accruing against the State for war expenses and disbursements, which are specified in this act, and which have already accrued, shall be presented within three months from the passage of this act, and all other claims shall be presented within three months from the accruing of the same, or the same shall be considered as donated to the State, and shall not thereafter be allowed, under any pretense whatever.” In a number of instances, accounts and claims reported to this office for payment bear on their face evidence of pre-

sentation for allowance after the expiration of the limit made by law. Discovering this to be the case, I immediately called on the Commissioners for explanations, and was informed by them that all such allowances were included with the properly allowed accounts, through inadvertence or oversight; for which reason I have refused to issue warrants, and the accounts are consequently suspended, until action may be taken by your honorable body, if deemed by you advisable. I have no doubt that many, if not all, of the accounts referred to, are of as meritorious character as those which have been more promptly presented for allowance.

The 9th section of the same act provides that the Auditor shall, annually, assess a tax, sufficient to pay the interest on the bonds authorized to be issued under said act. The rate of tax assessed for this purpose, for the years 1861 and 1862, is five cents on the one hundred dollars of valuation of taxable property. The first and second installments of interest on the bonds issued, fell due before any considerable amount of the tax was realized from collections. I presume that the amount hereafter to be realized will be entirely sufficient for the payment of the accruing interest.

The diminution in amount of taxable property assessed in the several counties, referred to in my last report, is found to continue from year to year, and, in my opinion, to a far greater extent than any actual depreciation in value of property will rationally account for. I have endeavored to learn, by inquiry of officers and others, from the different counties, the real causes which operate to bring about the decrease of assessments, and I learn that, in nearly every one of the counties, the impression is held that the property of every other county is assessed at a lower rate than the property of the one in question, and that, in consequence, many of the assessors endeavor to equalize the general assessment, by bringing the valuation of their own counties down to the standard of value supposed to govern in other counties. I have learned of several instances in which candidates for the office of assessor have openly offered, as an inducement to voters, that, if elected, they would assess property at rates less than its value. It has also been suggested to me that in some of the counties under township organization, it is the practice of town assessors to meet and agree on fixed uniform rates for valuing each description of property taxed, without regard to the actual value of the lands or other property listed. It seems necessary that some remedy should be provided for these and other abuses of the intentions and provisions of the revenue laws.

The existing condition of the financial matters of our State and of the whole country seems to require a modification of the laws prescribing the kind of funds in which taxes may be paid. Complaints are continually being made that it is, in most of the counties, entirely impracticable to obtain coin for the payment of taxes, even at any rate of premium; and it is represented that if the United States treasury currency was legally receivable for taxes, no difficulty would be experienced in making collections. I am fully convinced that all demands against the State can be met with this currency.

The Illinois Central Railroad Company, having failed to furnish the

Auditor with the lists and valuation of their property and assets, required by their charter, and having failed to pay over to the State Treasurer the taxes due from them for the latter half of the past year and the first half of the present year, I have brought suit against them, in the Sangamon county circuit court, with the view of compelling their compliance with the requirements of their charter, in this respect. Another installment of taxes is now due from them, but I am not informed of their intentions concerning payment.

At the date of my last report there were in operation one hundred and ten banks, organized under the general banking law, having a circulation of \$12,320,694. The great depreciation in the value of stocks, particularly of those issued by Southern states, which followed the breaking out of the rebellion, necessitated a call by the Bank Commissioners on the banks, to make good the securities deposited with the Auditor. And of the banks then in existence in Illinois, all but seventeen have been put in liquidation, under the provisions of the law, for neglect to comply with the call for additional securities.

The present circulation of banks in operation is \$566,163. The larger part of the reduction in the amount of circulation was caused by the voluntary act of bill-holders retiring notes and taking bonds therefor. Every facility was given for doing this; and I delayed selling the securities of the defaulted banks, so long as any considerable amount of notes were held by parties who preferred to take the securities. The balance of the securities were sold, the proceeds realized in coin, and *pro rata* dividends declared, at rates, which allowing for the present premium on coin, makes the average value of the money of suspended banks now outstanding nearly par.

Five banks have been organized under the provisions of the amended law of February 14, 1861; to which circulation has been issued, amounting in the aggregate, to \$51,945. Two of the old banks have complied with the provisions of the amended law, and received additional circulation.

The constantly increasing records and files of the Auditor's office, together with the amount of business transacted, require additional room and facilities, for the proper preservation of the valuable documents and books placed in the Auditor's keeping, and for the performance of the various and complicated duties devolving upon him. I would respectfully urge upon your honorable body to make provisions to that end.

JESSE K. DUBOIS,
Auditor of Public Accounts.

BIENNIAL REPORT

OF THE

STATE TREASURER,

TO THE

TWENTY-THIRD GENERAL ASSEMBLY

OF THE

STATE OF ILLINOIS.

SPRINGFIELD:

BAKER & PHILLIPS, PRINTERS.

1863.

BIENNIAL REPORT
OF THE
STATE TREASURER,
FOR 1861 AND 1862.

TREASURER'S OFFICE, ILLINOIS,
Springfield, Dec. 10th, 1862.

To the General Assembly of the State of Illinois :

I have the honor to submit the following report of the receipts and disbursements of the public money, in the two years ending November 30th, 1862, as follows, viz :

Receipts for revenue purposes, including the balance on hand on the 1st day of December, 1860, amount to \$1,775,239 87. Payments on the same account amount to \$1,400,542 68, leaving a balance on hand of \$374,697 19.

Receipts on account of the State Debt Fund, including the balance on hand on the 1st day of December, 1860, amount to \$640,462 21. Payments on same account, up to January 31st, 1861, amount to \$124,511 40, leaving a balance of \$515,950 81; which, in accordance with an act entitled "An act to relieve the people of this State from the payment of exorbitant and unnecessary taxes," approved February 8, 1861, has been transferred to the Revenue Fund.

Receipts on account of the Interest Fund, including the balance on hand December 1st, 1860, amount to \$1,699,136 41. Payments on same account amount to \$1,338,153 41, leaving a balance in the treasury of \$360,983 00.

Receipts on account of the State School Fund, including the balance on hand December 1st, 1860, amount to \$308,546 53. Payments on the same account amount to \$234,643 40, leaving a balance in the treasury of \$73,903 13.

Receipts on account of Central Railroad Fund, including the balance on hand December 1st, 1860, amount to \$287,824 47. Payments on same account amount to \$65,330 71, leaving a balance in the treasury of \$222,493 76.

Amount of Delinquent Land Tax Fund, remaining in the treasury on the 1st day of December, 1860, was \$4,331 26. Amount transferred, according to law, to revenue fund \$3,993, leaving a balance in the treasury of \$338 26.

Amount of the State Land Fund, remaining in the treasury on the

first day of December, 1860, was \$231 30; which amount has been transferred to revenue fund, according to law.

Receipts on account of the War Fund amount to \$3,610,796 59. Payments on same account amount to \$3,595,695 26, leaving a balance in the treasury of \$15,101 33.

Funds deposited in the treasury, from Adams and Hancock counties, belonging to unknown and minor heirs, \$126 40.

For a more detailed account of the receipts and disbursements of the public money, and the condition of the bonds and other evidences of the public debt, I beg leave to refer you to the annexed statements.

As the law makes it the duty of the Treasurer to report all apparent defects, inconsistencies, omissions, unequal or oppressive laws, which he may have discovered, I would report, that the law now in force relating to the payment of interest in the city of New York, leaves too much discretion in and responsibility on the treasurer, in paying the interest. The law makes no provision as to the manner in which the money is to be transmitted to New York, or as to the mode of keeping it while there. And I respectfully submit whether the legislature may not make some provision for the control and direction of the treasurer, the which may lessen the discretion of the treasurer and the hazard to the State.

I would also report, that the time fixed by law, (which is thirty days,) during which the treasurer shall remain in New York, for the purpose of paying the semi-annual interest, is unnecessarily long. In my judgment, fifteen days, (which is the time which the agents of other states remain in New York, for a similar purpose,) is amply sufficient for the payment of interest; and if the holders of bonds will not collect the interest within that time, the State ought not to incur the hazard of keeping the money longer in New York; and it can be no great hardship to tardy creditors, to compel them to present their claims at the treasury.

I would further report, that a large number of coupon bonds, denominated Illinois and Michigan Canal Bonds, payable after the year A. D. 1860, are now outstanding, and the coupons being exhausted, the treasurer of the State, as well as the holders of said bonds, are subjected to great inconvenience in the payment of interest, and the securing of proper vouchers of the payment, by the necessity on every payment of semi-annual interest of producing the original bonds, which are now covered, to a great extent, with the stamps of the State and the Canal Trustees. In view of which, it seems to be necessary that some law be enacted authorizing the refunding of all past due Illinois and Michigan Canal Bonds.

During the past year frequent complaints have been made by the tax payers of the State, through the collectors of the different counties, of the great difficulty experienced in procuring coin for the payment of taxes. I would respectfully submit, whether the legislature may not make some provision for the relief of the people in that particular, so far as to permit the taxes, with the exception of the interest fund, to be paid in United States treasury notes. I question the propriety of making the interest for the next year, at least, payable in currency. The assessments are

made, and the tax books are in the hands of collectors, for the year 1862. The interest tax levied is only sufficient to pay the interest on the public debt for the coming fiscal year. The levy for revenue tax is only one-third as large as in former years, and will hardly be sufficient to pay the current necessary expenses of the State. A large amount of our debt is held in foreign countries, and the interest is payable in New York, with the current rate of exchange on London added. Now, if the Treasurer has to pay this with currency, the exchange will be, at present rates, thirty per cent. higher than if it is paid in coin, and our interest fund will fall proportionately short of paying the accruing interest on our public debt. It seems to me that the honor and interest of our State alike demand that we shall continue to provide for the payment of our interest in coin, so long as the General Government and other states, like Ohio and New York, do the same. If we fail to pay coin our securities will go down in the market in proportion to the current rate of premium on coin, and our own people will suffer directly from the decline. We have wisely determined to issue currency to our banks only on Illinois bonds as security, and by the adoption of that measure have made each and every one of our citizens interested in preserving our credit as a State unimpaired. Again: suppose, what is not impossible, that in the perilous condition of our country, it becomes necessary for the State to use her credit for the protection of her territory and citizens from the insurgents, do we do wisely to take any measures which may weaken or impair her credit? There seem to be great objections to making the interest tax payable in currency and ordering the Treasurer to convert enough into coin to pay the interest. It will, in either case, cost the people the same. It throws upon the Treasurer new and unusual duties. Instead of his being simply the custodian and disburser of the public money, he will have to perform the functions of a broker. More than all, as stated above, the addition of thirty per cent. to the amount calculated as sufficient to pay the interest on the public debt, will make the amount levied for interest wholly inadequate.

It seems to me that a failure to pay our interest in coin would be a great injustice to our creditors, a loss to the State, and a stain upon her reputation; and I would respectfully submit, whether, for the reasons stated above, we ought not to collect the interest tax in coin.

WILLIAM BUTLER, *Treasurer.*
